EDUCATION

Ramaiah Institute of Technology — B.E., Industrial Engineering and Management *Bangalore, India*

CGPA: 8.8/10 *Jan 2022 – Jul 2025*

EXPERIENCE

Amazon Development Centre India Pvt. Ltd *Hyderabad, India*

Program Manager I – Quick Commerce, RoW Central Operations (CO) *Jul 2025 – Present*

- Architected and deployed an end-to-end cold room monitoring program by driving cross-functional process transformation across Operations, Technology, Business and Food Safety — integrating automated issue detection, real-time alerting, and OEM vendor coordination. Standardized SOPs and established clear ownership and governance frameworks, reducing average zone resolution time ~56% (from 72+ to ~32 hours) across 30–35 daily breakdowns and safeguarding an estimated $5,250 in inventory availability per incident.
- Owned end-to-end product requirements and operational design for ChillSafe, an in-house platform powering cold-chain monitoring and incident management — leading UAT, production debugging, and feature enhancement cycles, and training end users to accelerate adoption; achieved 95% work item resolution within SLA.
- Conceptualized and drove NIBS activation/deactivation automation, defining requirements for NLP-based ticket identification, action workflows, and end-to-end request tracking, enabling ~$16K in savings.
- Developed an AI-powered cold-room monitoring dashboard using Kiro providing leadership with real-time and historical visibility into zone downtime, vendor performance, breakdowns, and time-to-fix, enabling data-driven escalation and repeat-failure identification while reducing manual reporting time by 75%
- Increased QC IN automation coverage towards 40.5% by baselining automation levels across workstreams and partnering with the Tech team on execution, while originating a $2M 2026 savings plan — identifying and logging automation opportunities across the function, kicking off top initiatives, and standing up a savings tracker.
- Delivered ~3 FTE in annualized operational savings by designing and launching Mission Control, a scalable operations platform that automated skills-based work allocation and routing, optimizing workforce utilization and improving SLA adherence.
- Designed the scoring logic for an associate performance scoreboard — ranking associates on output, error/miss rates, and productivity metrics across all IN QC workstreams — giving leadership a standardized, data-driven view for coaching and workforce management.

Program Manager Intern – Relay Operations (RO) *Jan 2025 – Jul 2025*

- Reduced cycle time by 60% by conducting VSM across 20+ rescues and partnering with tech teams to automate workflows using Work Manager and Slack-based approvals.
- Improved GPS ping resolution by 21–35% through collaboration with RPOCs, driving a 2.2% compliance uplift.
- Enhanced geofence compliance by 34% via site relocation, geofence boundary tuning, and dashboard automation.
- Drove ARP tool adoption by publishing the SOP, training 15+ associates, and raising SIMs to improve functionality.

Bosch Limited *Bangalore, India*

R&D Intern *Sep 2023 – Nov 2023*

- Analyzed engineering data to optimize ventilation systems for CNG, H2, and diesel engines, improving system efficiency through cross-functional collaboration.

PROJECTS

IoT-Enabled Ergonomic Material Handling Equipment *Sep 2024*

- Co-authored and presented a research paper on IoT-enabled ergonomic material handling equipment for effective inventory management at the IPDIMS conference, NIT Rourkela.

Ergonomic Design of Insect Detection and Spraying System *Apr 2025 – Jul 2025*

- Developed a CNN-based image classification and object detection model to identify crop pests and automate targeted pesticide spraying

LEADERSHIP

Sunshine Toastmasters *Bangalore, India*

Vice President of Membership *Jan 2024 – Jul 2024*

- Managed the end-to-end membership pipeline- recruitment, onboarding, and retention, driving a 70% increase in membership through targeted marketing campaigns, open houses, and cross-functional collaboration with club leadership on strategic goal execution.

Associate Vice President of Education *Jul 2023 – Dec 2023*

- Organized workshops, orientation sessions, educational sessions, and training events, and served as a mentor in the youth leadership program, facilitating the enhancement of speaking and leadership proficiencies.

SKILLS & CERTIFICATIONS

Program & Product Management: Program Management, Product Management, Process Design, Workflow Automation, Stakeholder & Change Management, Cross-functional Leadership, Operations Strategy, Mentoring, Teamwork

Data & Tools: SQL, Python (Basic), Advanced MS Excel, Kiro, KPI Tracking & Data Visualization

Certifications: Data Analyst Course, Supply Chain Analytics, AWS Fundamentals of ML & AI
